NeuroMarseille's day – Preliminary program – 28/06/2022

Summary :

NeuroMarseille invites you to gather on June 28, 2022 from 9am for a scientific and convivial day. Meet us on the Saint-Charles campus for a complete program: conferences, workshops, buffet, celebration for the research grant winners, projection... But also, an exceptional lecture by our guest, Pr Olaf Blanke, director of the Laboratory of Cognitive Neuroscience at EPFL.

Information :

- June 28, 2022 - 9 :00 am - 5 :30 pm
- Saint-Charles campus

Preliminary program :

9:00 am – 10:00 am	Workshops
	Skills upgrade: animal experimentation I 1h credit
	Clinical experimentation: CPP, the researcher's "bete noire"

10:00 am – 12:00 noon	Innovative and collaborative research grant laureates
	Short presentations: context, results and perspectives / questions

12:00 noon – 2:00 pm	Informal chats around a buffet

2:00 pm – 3:00 pm	Pr Olaf Blanke : conference
	Brain mechanisms of invisible presences: hallucination engineering, neuroscience robotics, neurodegeneration

3:00 pm – 5:00 pm	Workshops, visits and meetings
	Encounter between Pr Olaf Blanke and the PhD students
	For you to try: PTVR (Perception Toolbox for virtual reality) open source and collaborative software for virtual reality experiments in neuroscience and experimental psychology. Application to vision
	M1's posters showcase
	Skills upgrade: animal experimentation II 1h credit
	Clinical experimentation: CPP, the researcher's "bete noire"
	Professional photographer at your disposal for your CV, website, social media...
	Visit and exploration of the LNC/LPC's platforms
	Lab guided tour by the LNC/LPC students for the other students
	Documentary screening and debate "Mon cerveau face au climat"
