

SATT-Sud Est Honours

- The SATT, which celebrated its 10th anniversary on November 24, honored a researcher of whom NeuroMarseille can be proud: **Aziz Moqrich**, DR2 at IBDM, winner in the "IMPACT" category, sets an example in terms of innovation with [TafalgieThérapeutics](#).
- Not forgetting the extraordinary success of **Viktor Jirsa**, DU of the INS with [the Virtual Brain](#).
- In the pedagogy category, **Estelle Nakul**'s superb initiative when she was a postdoctoral fellow at the LNC, with an [educational card game](#) now translated into 2 languages!

*These are just a few examples but innovation does not remain in the 9
NeuroMarseille laboratories: congratulations to all of you,
for making the dream a reality,
from the laboratory to the markets!*
